is substantially identical to the disclosure of German Application No. 103 57 112.4. As such, the entire disclosure of the above identified application is entitled to the December 6, 2003 priority date, which date is almost five months earlier than the April 28, 2004 U.S. filing date of Von Blucher '541. In view of this, the Applicant respectfully submits that Von Blucher '541 is no longer effective prior art with respect to the above identified application and both of the raised rejections, under 35 U.S.C. § 102(e) or 35 U.S.C. § 103 in view of Von Blucher '541 alone or in combination with Pacanowsky et al. '447, should be withdrawn at this time.

The Applicant acknowledges that the additional reference of and Pacanowsky et al. '447 may arguably relate to the feature(s) indicated by the Examiner in the official action. Nevertheless, the Applicant respectfully submits that the combination of the base reference of Von Blucher '541—which is no longer effective prior art—with this additional art of Pacanowsky et al. '447 still fails to in any way teach, suggest or disclose the above distinguishing features of the presently claimed invention. As such, all of the raised rejections should be withdrawn at this time in view of the above amendments and remarks.

If any amendment to this application is believed necessary to advance prosecution and place this case in allowable form, the Examiner is courteously solicited to contact the undersigned representative of the Applicant to discuss the same.

In view of the above amendments and remarks, it is respectfully submitted that all of the raised rejection(s) should be withdrawn at this time. If the Examiner disagrees with the Applicant's view concerning the withdrawal of the outstanding rejection(s) or applicability of the Von Blucher '541 and/or Pacanowsky et al. '447 references, the Applicant respectfully requests the Examiner to indicate the specific passage or passages, or the drawing or drawings, which contain the necessary teaching, suggestion and/or disclosure required by case law. As such teaching, suggestion and/or disclosure is not present in the applied references, the raised rejection should be withdrawn at this time. Alternatively, if the Examiner is relying on his/her expertise in this field, the Applicant respectfully requests the Examiner to enter an affidavit substantiating the Examiner's position so that suitable contradictory evidence can be entered in this case by the Applicant.
